Dear Mr. Makaruk,

Re: Mysteries of the Forest Board Game

I received the review copy of the Mysteries of the Forest Trivia Board Game with great interest. This game contains a variety of links to science curricula at several different grade levels, and provides students with an interesting and challenging format in which to learn and study this material. I believe this is a game our students would enjoy and benefit from as they learn about our natural resources in a fun, yet educational way. I challenged some of my colleagues to a game, and we certainly had fun playing. We did discover that some of us were not as smart as we perhaps thought we were!

Thank you for sharing this game with us.

Sincerely,

A handwritten signature in black ink, appearing to read "Roy Ripkens".
