Mr. Brian Makaruk
Box 311
Glendon, AB T0A 1P0

Dear Mr. Brian Makaruk;

The members of the Saskatchewan Forestry Association want to thank you for the opportunity to review the "Mysteries of the Forest" board game. We found the game a fun and active way to help achieve forestry and environmental education. We believe all schools in Saskatchewan that offer the Forestry 20, 30 applied arts program should have this game as part of their school resources. Playing it would allow students to reinforce their learning about the environment and build confidence in what they know.

Especially helpful are the different levels of questions available in each of the categories. As players progress from the simple to the most challenging questions a real sense of pride in knowledge gained is achieved. The picture cards also add an extra unique element to the fun of the game.

With the urbanization of much of Canadian society, a game such as this can go a long way in reconnecting urban dwellers with the natural world. Playing it makes you want to get out in the forest and see many of the things you discover and learn about in the game.

We wish you the best of luck in introducing this game to Canadians. We will recommend it to all we come in contact with. Thank you for your efforts in its creation.

Sincerely

Bernadette Slager
Education Coordinator
Saskatchewan Forestry Association
